

CUSTOM GRAVITY CONVEYOR SOLUTIONS

Improve workflow efficiency

Custom designs for frames, rollers, and supports to help move your goods.

Gravity conveyors provide an efficient and economical way to move goods from one process to the next, increasing your productivity while streamlining processes.

Ideal for many industries including:

- Distribution
- Manufacturing
- Automotive
- Retail
- eCommerce
- Aerospace
- Pharmaceuticals
- Textiles
- Warehousing
- Parcel handling

Custom-made solutions

- ✓ **Tailored to your needs**

We supply custom-manufactured conveyor systems to fit into your existing setup, maximising efficiency and use of space. Our expert advice covers load capacity, size, roller materials, supports, and more, to find the best solution for your application.
- ✓ **Versatile**

Conveyor rollers can be made in various diameters and lengths, with a variety of shaft configurations and materials to best match the characteristics of the products you are handling, ensuring optimal performance.
- ✓ **Enhanced product quality**

Choose configurations and roller materials best suited to your products to help reduce potential damage during transportation, ensuring the quality of your goods remains high.
- ✓ **Efficiency and productivity**

Streamline your process of moving of manufactured goods from one process to the next for enhanced efficiency and productivity, while reducing downtime.
- ✓ **Cost-effective**

While custom solutions may have an initial cost, they can result in long-term cost savings by optimising the workflow.
- ✓ **Easy set-up and adaptability**

Gravity conveyors are easy to set up, dismantle, or relocate, also allowing for future modifications or expansions without significant disruptions.
- ✓ **Increased safety**

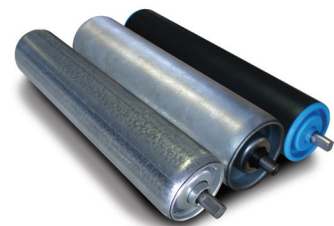

Tailoring a conveyor system enhances safety by addressing specific needs and potential hazards, reducing the risk of accidents for workers.

Looking for custom rollers?

We can supply a wide range of conveyor rollers as standalone products.
